This application is covered by the extended European search report pilot project at present running within the European Patent Office, applied to all European patent applications filed as first filing and searched on or after 01.07.03. Under this project the EPO issues together with the search report an opinion on whether the application and the invention to which it relates meet the requirements of the EPC. This non-binding opinion is issued free of charge as a service. This opinion may be used as the basis for an informed decision as to whether it is desired to pursue the application further or not.

For further details of this pilot project, the applicant's attention is directed to the Official Journal edition 5/2003. If any further immediate questions or comments arise the EPO Customer Services: +31-70-340 4500 or +49-89-2399 2828 can be contacted.

The examination has revealed that the application and the invention to which it relates meet the requirements of the Convention.

If the applicant wishes to continue with this application, the examination fee must be paid. The communication under Rule 51(4) EPC will then be issued promptly unless a final topping-up search carried out at least 18 months after the filing date reveals new prior art under Article 54(3) EPC or the assigned examining division disagrees with the positive opinion.

If the examination fee has already been paid and the right to the communication under Article 96(1) EPC has been waived for this application, the communication under Rule 51(4) EPC will also be issued promptly unless a final topping-up search carried out at least 18 months after the filing date reveals new prior art under Article 54(3) EPC or the assigned examining division disagrees with the positive opinion.
